## FRONTEND DEVELOPER

Frontend Developer skilled in React, Javascript, TypeScript, and modern tooling (Next.js, Tailwind, Zod, Shadcn). I build fast, accessible, and maintainable interfaces for products people actually use. Passionate about performance, design systems, and reusable component libraries. Currently seeking a role where I can contribute to real products and elevate the user experience.

## WORK EXPERIENCE

### Side Projects & Contributions

Sep 2023 - Present

Built and deployed multiple production-grade web applications using React, Next.js, TypeScript, Tailwind, Prisma, PostgreSQL, MongoDB, and Stripe. Implemented real-time features, secure authentication, payment processing, and fully responsive, WCAG AA-compliant interfaces. All projects are live on custom domains (Vercel, Netlify and Render), with CI/CD pipelines and continuous Core Web Vitals + performance optimization.

### Viagogo, Customer service assistance — Remote

Jan 2023 - July 2023

Provided remote customer support for event and ticket issues via phone and email, resolving inquiries and managing refunds and escalations. Coordinated with cross-functional teams and documented recurring issues.
